

500  
~~250~~ studios already?

Time flies when you're having fun!

Hard to believe, but we passed the ~~250~~<sup>500</sup> studio mark recently. We're told that it's a major milestone, but we prefer to call it a good start.

In fact, our clients have made Axia the **fastest growing console company** in radio. To you, we say "thanks" for your trust and enthusiasm. And to those of you who aren't yet clients: we're ready when you are.

Okay, back to work now. (Consoles don't build themselves, you know.)
